

Diploma of INFORMATION TECHNOLOGY

Vocational Qualification
(ICT50220) (CRICOS 112539M)

Welcome to AIT

Operating since 1999, AIT has educated thousands of students from all over the world who have gone on to build successful careers in the digital and creative technology industries.

Course Information

This vocational education course will provide you with a strong foundation in Information Technology, and the essential knowledge and skills you will need for professional practice. AIT's Diploma of IT covers important technical concepts, such as programming in multiple languages, web development, database design, software engineering and data management, while also emphasising professional skills such as communication, collaboration, trouble-shooting, problem-solving, and critical thinking.

Upon completion, you will be ready for entry-level IT positions, such as help desk technician, technical support specialist or network administrator, and can even continue your education with AIT's second-year bachelor's degree program.

With the ever-changing landscape of technology, our Diploma in IT offers a solid foundation for you to achieve long-term growth and success in your career.
